School Description

John L Webster School is located in Malibu, California. Malibu is a small, coastal community with a population around 13,000 residents. The city, well known for its celebrity residents, beaches, and Pepperdine University, is located in Los Angeles County and is a short distance from Los Angeles, the state's largest city. Approximately 15 million tourists visit the city each year. 91.5% of the residents are white, 6.1% are Hispanic and nto other minority groups constitute more than 2.6%. 14.2% of the population speak a language other than English in the home. The median housing price of \$1,000, 001 is well above the national and state average. The median household income of \$125,202 is also above the state average of \$60,883.

John L Webster School is part of the Santa Monica Malibu Unified School District (SMMUSD). SMMUSD serves approximately 11,300 students in both Malibu and neighboring Santa Monica communities. The district is comprised of 10 elementary schools, 3 middle schools, 2 high schools, 1 alternative high school, 1 continuation high school, 1 adult school and and an Early Childhood Development Program. The district had an attendance rate of 95% during the 2015-2016 school year.

District Vision: As a community of learners, the Santa Monica-Malibu Unified School District works together in a nurturing environment to help students be visionary, versatile thinkers; resourceful, lifelong learners; effective, multilingual communicators; and global citizens. We are a richly varied community that values the contributions of all its members. We exist to prepare all students in their pursuit of academic achievement and personal health and to support and encourage them in their development of intellectual, artistic, technological, physical and social expression.

John L Webster is a grades TK-5 elementary school, located in the central part of the city of Malibu, and has a total enrollment around 300 students. 76% of the total student population is white, 12% is Hispanic or Latino, 6.2% two or more races, and 3.4% Asian. 7.9% of the population are classified and English Learners and 5.1% are classified as students with a disability. 6.8% of the student population is identified as socioeconomically disadvantaged. The school employs 14 teachers. Class sizes in grades K-3 have an average of 23 to 1, and in grades 4 and 5 the average is 30 to 1. 6 teachers have earned the prestigious National Board Certification. In addition to the classroom teachers, the district supports the school site with a Literacy Coach, and Language and Literacy Interventionist, Classroom Instructional Assistants, a school psychologist, part time health office specialist and school nurse, part time attendance clerk, and office manager.

Webster Vision: At Webster School, staff, parents, and community members work together to create a joyous and caring learning environment in which all students are supported, challenged, and successful. Webster students master the New California Standards, develop higher level thinking skills, and connect their learning to the real world in all areas of academic study, the arts, technology, and character development.

Principal's Message:

Webster's students take great pride in their school, in their learning, and in themselves because they are immersed in an environment where it is abundantly clear that everyone around them cares very deeply about their happiness and success. Virtually everyone who visits our school comments on how happy and purposeful our students are at school. They are surrounded by teachers who are passionate about teaching meaningful content via processes that support student engagement. They are also taught by specialists whose love of art, music, gardening, and technology is communicated unmistakably in every lesson. We also work diligently on Character Counts and our school follows the Olweus Bully Prevention Program.

Our school has embarked on a comprehensive effort to make ensure every student meets the current California Standards. The elements of this effort include State-adopted standards-based instructional materials at the heart of the instructional program, a variety of supplemental materials, a consistent focus on professional development, and the regular use of assessment data to inform and guide instruction. Six Webster classroom teachers and our Literacy Coach have achieved National Board Certification, this is more than half our teaching staff! Webster was also recognized as a California Distinguished School in 2010 and 2014, based on the work our staff does on a daily basis with our students.

Webster families view our school as a highly valued partner in the challenging, satisfying work of raising their children. Parents at Webster have very high expectations for us, but these are matched by their personal involvement and support. The most often-repeated comment from parents at Webster is, "I wish I could go to school here!" We regard that as high praise indeed.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

All students at Webster have access to state-approved and district-adopted textbooks and instructional materials in all core academic areas. The district follows the state guidelines and cycles for textbook adoptions with new science materials purchased and implemented in the 2007-08 school year and new math texts in 2008-09. With the textbook adoption process frozen due to budget constraints at the state level, the district is currently in the process of refreshing the English language arts curriculum, using the existing texts. All students, including English learners, have their own copy of textbooks, except in the case where "Big Books" are used for the entire classroom at the early primary level. Textbooks and instructional materials are recommended for school board approval through a comprehensive process by a districtwide committee of teachers and administrators. Members of the public are invited to review recommended materials and make comments prior to board approval.

School Facility Conditions and Planned Improvements (Most Recent Year)

Webster school was built in 1949. Two major reconstruction projects in the past 20 years have resulted in all new plumbing, heating, electrical, and roofing systems. Major improvements in seismic safety and accessibility are in place. All classrooms, the office, and the library are connected to the Internet through a high-speed connection and there is wireless access to the network throughout the school. The most recent taxpayer-funded reconstruction project, Proposition BB, has provided a significantly upgraded technology infrastructure and a completely new fire alarm system. Additional Proposition BB-funded projects related to school safety and security are in the final stages of the planning process, and the first of several construction phases is about to begin. A new library was completed in 2001. The playground includes two grass playfields and a play structure. Students are regularly expected to assist school and district staff in keeping the grounds free of litter.

Gardens and murals make the campus an especially beautiful and welcoming learning environment. The physical plant is well maintained and is in well-functioning condition. Each of our 13 classroom teachers has a dedicated classroom. Every classroom has an interactive white board and a SMART Board, an Elmo document camera, and every classroom from first through fifth grade has a chromebook for each student, allowing for a one to one technology program. Our library is beautiful and spacious. Our computer lab provides 34 iMac desktop computers, all online. There is a classroom provided for our after-school childcare program so no regular classrooms have to be shared for this purpose. There are many outside garden areas and patios regularly used for small group activities and special projects and events. Our cafeteria/auditorium was recently remodeled with a new stage curtain, sound system, and lighting.

2018 saw the completion of the new window paint and floor project. We also were able to do roof section repairs. (Carey insert here)

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Opportunities for Parental Involvement (School Year 2019-20)

Parents are deeply involved in every aspect of Webster School's effort to provide a rich educational experience for every student. It is not uncommon to have 25-50 volunteers working in the classrooms on any given day. Parents raise significant sums of money to fund materials that support our district programs. As a collective group, our PTA supports the purchase of technology, online academic programs, assemblies, field trips, classroom materials and after school programs such as a Math Club and reading Club. More than 100 parents work every week as volunteer classroom assistants. Parents and community members contribute their talents, knowledge, and experience as classroom speakers. Parents organize and participate with their children in a variety of community-service learning projects. Parents help to supervise the playground and direct traffic. All of these activities and many others are coordinated through the Webster PTA.

For more information on how to become involved at the school, please contact Karin Al Hardin, our PTA president at (310) 456-6494.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

The staff reviews the school's safety plan annually. Students are supervised by school staff at all times while on the Webster campus. School grounds are open 20 minutes before school begins. Traffic, parking, and drop-off procedures have been developed in consultation with local law enforcement and the Webster PTA. Parent volunteers direct traffic and assist students as they are dropped off by parents. During the school day, all recesses are supervised by teachers and other school staff, as well as parent volunteers and Pepperdine University students in various programs.

Parents and guardians must sign students out of the office if they are picking them up during the school day. Physical education teachers, office staff, and teachers receive training in various areas related to student safety, including first aid and CPR. After school, all students are required to be enrolled in supervised programs if they remain at school, such as child care, homework club, and school-sponsored enrichment classes. During the school day, there is no unauthorized access to the school campus. All visitors must enter through the main office, sign in, and get a visitor's badge to be worn while on campus. Students are only released to parents or their designees.

The School Site Council annually reviews all aspects of school safety and security and makes recommendations based on the findings. District support is sought to implement any recommended changes or improvements. The School Safety Plan was last reviewed, updated, and discussed with the school faculty in August 2018.

Professional Development provided for Teachers

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement			

All teachers and staff in SMMUSD participate in ongoing professional development through banked time, a total of 90 minutes of meeting and professional development time each week at each site. Areas of districtwide focus for teacher and administrator professional development include implementation of curriculum guides and other areas that are determined by a review of summative and formative data from all school sites and the collection of input from teachers and administrators. Among the primary focus areas for professional development in SMMUSD are the following:

- Schoolwide focus on writing and communication
- Training in Write From the Beginning and Beyond
- Ongoing development of Professional Learning Communities
- Focus on California State Standards for ELA and Math and Next Generation Science Standards—standards-based curriculum and instructional delivery
- Math coaching—expanding our understanding of the standards for mathematical practice
- Using data to improve classroom instruction
- Supporting students with special needs
- Differentiated instruction for all students, including English Learners

A variety of methodologies are used to provide professional development, including coaching and mentoring. SMMUSD provides coaching through several programs such as BTSA, National Boards, literacy and ELD coaching, Instructional Leadership Teams, and such specialized programs as Cotsen Fellows and Math Coaches. Additionally, professional development occurs through workshop series during banked time and/or after-school opportunities.

Each August, all teachers new to Santa Monica-Malibu are invited to participate in Teacher Academy, a professional development and orientation to districtwide curriculum and instructional initiatives. All eligible new teachers are encouraged to participate in BTSA. Teachers interested in applying for National Board Certification may participate in the process and can elect to be supported by teachers who have already achieved National Board Certification.

Types of Services Funded

A combination of state and federal funding is used to cover all aspects of our instructional program.

SMMUSD uses Title II funds to support a Math and Secondary Support Coordinator to:

- work with teachers/administrators to support student learning around math content and practices for all students
- facilitate and review the guaranteed and viable curriculum that includes use of common formative assessments to gauge student achievement
- support ongoing intervention/enrichment opportunities to address student growth and needs

Title III funds are utilized to expand educational opportunities that increase language and academic proficiency of our English learners, and to expand parent engagement opportunities.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
