School Accountability Report Card

Reported Using Data from the 2018-19 School Year

Published During 2019-20

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2019-20)

As the principal of Noble, my goal is to make sure that each child is safe, given every opportunity to learn to his/her fullest potential, and enjoys coming to school each day. Our Noble School mission states that it is important for us all to work together to ensure our students become responsible, academic, independent, successful, and empowered individuals. Therefore everyone must join together in an effort to teach our children. The parents, staff, and community must unite and do their part to ensure that each child receives an excellent education and a wonderful school experience.

Noble is a K-5 Elementary campus that follows the Common Core State Standards for California. We adhere to all district trainings, process, and procedures.

Noble houses the district office then holds a random lottery to fill the kinder class for the upcoming school year. This group of 24 students become the incoming Kinder PPP class. This group of students move through the grade levels through 3rd grade together. Parents are encouraged to volunteer their resources to the classroom to make the program effective. The curriculum, teachers, trainings, and assessments are consistent with the district and their grade levels.

Berryessa Union School District and Noble Elementary work to provide all students the skills to become lifelong learners and successful 21st century global citizens.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements (Most Recent Year)

General: The district places a strong emphasis on ensuring that all schools are safe, clean, environmentally friendly, mechanically functional and inviting for students, staff members, and the community. To assist in this effort, the district utilizes Facility Inspection Tool (FIT) developed by the State of California OPSC and local operations department developed inspection survey methods to keep facilities in compliance with all federal and state health and safety regulations. The district regularly inspects and reviews the condition of the school facilities and surrounding grounds. The district places the highest priority on those safeguards that impact the fire, life and safety protection of the students, staff, and school buildings. Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Age of School Buildings: Noble was opened in 1963. This school has 25 regular classrooms, a multipurpose room, a library, and an administration building. In addition to the main building, there are five portable classrooms that serve as classrooms for music, Science, after school community programs, and a daycare center.

Maintenance and Repair: District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order system process is used to ensure efficient service and highest priority is given to emergency repairs. At the time of publication, 100% of the school's restrooms on campus were in good working order. This site also had interior and exterior lighting upgrades completed through Prop. 39 initiatives in identified areas throughout the campus.

Cleaning Process and Schedule: The district has developed cleaning standards and schedules for all schools in the district. A summary of these standards and schedules is available at the school or the Maintenance & Operations office. The principal, with the guidance of the maintenance supervisor works daily with the custodial team to ensure that the cleaning standards are met, and that classrooms, restrooms, and campus grounds are kept clean, safe, and well-maintained.

Modernization Projects: All scheduled Modernization projects as a part of (Measure L) were completed during the 2016/17 school year.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Mathematics (grades 3-8 and 11)	61	65	57	58	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

Opportunities for Parental Involvement (School Year 2019-20)

Parents at Noble School choose to serve on the School Site Council, which approves the annually revised school plan and budget developed for instructional support to both English Language Learners (ELLs) and students identified as at-risk academically. In addition, parents serve on the English Learners Advisory Committee to ensure that teachers and state resources help meet the academic and linguistic needs of all English Language Learners. Parents and teachers also serve on the PTA which raises funds to support physical education, art, assemblies, science, and technology programs. Annually, the PTA allocates funds for school-wide assemblies, class field trips, and materials to enhance each teacher's instruction. Noble School encourages parent and community volunteers to provide small group instructional support in classrooms when requested by teachers. Parents also contact community organizations and businesses to add opportunities for support of student learning with specialty programs, such as Project Cornerstone that provides a volunteer to read a book selection and complete an art project with the students. Employees from Starbucks and Junior Achievement also provide instruction annually in financial literacy and the role of the community in career development. Our parents partner with our PTA to support a school garden for environmental education. We have partnered with the city of San Jose for the Walk to School initiative, supervised by parent volunteers. Through the resources of SYNOPSIS and parent volunteers who coordinate and supervise the science fair, students in grades 3-5 also have the opportunity to participate in the completion and presentation of an individual or group science fair project. Parents also organize and coordinate the annual Spelling Bee for students in grades 4 and 5. Events for families to join together for building a culture of caring include both a fall festival with a Halloween theme and family dinner nights at community restaurants.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

Suspensions and Expulsions

School Safety Plan (School Year 2019-20)

Members of our staff monitor students on the school grounds daily for 10-20 minutes prior to the start of school (depending on staggered schedule) and for 15 minutes at dismissal. Teachers supervise and assist student crossing guards to stop traffic at crosswalks for students to safely cross neighborhood streets and monitor the students assisting in the area where parents drop off and pick up students. Monthly safety drills review staff and student response strategies school-wide for fires, earthquakes, and intruders. The staff has received Intruder Alert training from the SJP School Safety Liaison Unit, and classes practiced the specified shelter in place safety strategies. All visitors and volunteers must sign in when they arrive at school, wear a name badge while on campus, and sign out when they leave school. All Substitutes are given a sheet for review of our safety procedures in the event of an emergency while the classroom teacher is not in attendance. A custodian and/or other school employee remains on site for all events held after school hours. The school's alarm system for fire was updated during July and August of 2012, and the security alarm is consistently monitored by a local security firm. All repairs of school facilities posing a hazard for students are addressed in a timely manner by the district's maintenance staff.

The California Department of Education issued guidance to LEAs on August 1, 2018, regarding how to calculate school-level per-pupil expenditures that will be reported on 2018-19 report cards.

Types of Services Funded (Fiscal Year 2018-19)

Individual school sites offer Supplemental Instruction (SI) to students who are below grade level. It is up to each individual school site to identify the students who need extra support based upon district benchmarks or teacher recommendations. Each school site selects certificated and classified staff to teach these SI classes, usually after school (1 – 3 days a week). Each school also identifies the curriculum that will be used. The majority of the school sites select computer-based programs where students can work independently at their current academic level. Some schools provide this time to receive help on their homework.

Professional Development (Most Recent Three Years)

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement	16	19	15

Professional Development this school year occurred on many different levels – before school started (summer of 2019) and ongoing throughout the 2019 – 2020 school year. The district office working with our site principals and curriculum leadership teams developed the scope/sequence of the professional development. Leadership teams reviewed student data produced from benchmark tests, ELPAC, and SBAC data, as well as staff feedback when developing the scope and sequence.

At the beginning of the school year, all certificated and classified staff participated in two days of professional development aligned to their instructional role and needs. TK-5 teachers received training on providing effective Tier 1 instruction in math and ELA. Special education staff, social workers and psychologists received training on topics pertinent to their needs such as All Learning is Social Emotional, TCI De-Escalation, Instructional Scaffolding to Assist and Support Student, and Data Collection and Behavior Management. Middle school staff received specialized training related to the content they teach, that focused on the social emotional element of learning as well as recently adopted curriculum. All middle school teachers participated in a workshop on understanding gender. Training for new teachers focused on introducing the district's curriculum and assessment programs. Classified staff participated in some sessions with their certificated colleagues in order to have the opportunity to collaborate while learning. They also attended other sessions designed to meet their specific professional needs.

During the school year middle school, science teachers were released up to three days to collaborate on implementation of the new science program. Middle school math and writing teachers scored and/or analyze student benchmarks during release days for each grade. 7th grade science teachers were released for 1-2 days for training on the district's comprehensive sexuality program. Additional training was offered on release day for special education teachers to support implementation of our dyslexia curriculum as well as special education components of our ELA programs.

Throughout the school year, we offered monthly professional development sessions in which all teachers participated (1.5 hours on 10 early release Thursday afternoons). Principals and district office administrators chose the topics for the 2019-2020 school year in alignment with the District focus on developing a multi-tiered system of support.

The Sobrato Early Academic Language (SEAL) program was implemented at six of our ten elementary schools in grades TK-3. The schools included were Cherrywood, Laneview, Summerdale, Brooktree, Toyon and Vinci Park. Teachers in the first two years of implementation received three two-day training modules each followed by a day of unit planning. Teachers in the third and fourth year of implementation participated in three days of unit planning. Contracted SEAL experts provided the module training sessions and three district instructional coaches facilitated the follow up planning PD sessions. Teachers were released from their classrooms for all of these PD days.

Four instructional coaches provided BTSA induction training for all teachers who qualified to receive BTSA training and support. Additionally, BUSD teachers provide PAR assistance to teachers who are in need of additional assistance. All teachers have access to an instructional coach so that they can receive follow up support on implementing new learning attended through professional development.

An MTSS committee and Differentiated Assistance Team received 3-5 days of training on change management facilitated by WestEd and the Santa Clara County Office of Education. Some members also participated in 3 training sessions of equity. Team members then trained principals during monthly professional development meetings. The focus of both teams aligned with the district goal of developing multi-tiered systems of support at each site.
