School Accountability Report Card

Reported Using Data from the 2018-19 School Year

Published During 2019-20

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2019-20)

Northwood Elementary School is a public school serving Kindergarten thru 5th grade students. As part of the Berryessa Union School District located in San Jose, CA, we are located in the Silicon Valley, nestled against the northeast foothills of San Jose. Northwood has a diverse student population including a majority of Asian students, as well as Latino, White, African-American, and Pacific Islander making up our ADA of approximately 600 students. Our school is committed to rigorous instruction, standards-based curriculum, and a strong tradition of high pupil achievement. Our students master 21st century skills and consistently score above average on state and national tests and attend high school in the East Side Union High School District. In addition to our core instructional subjects we provide specialized programs in instrumental music and physical education.

Age of School Buildings: Northwood was opened in 1965. This school has 26 regular classrooms, a multipurpose room, a library, and an administration building. In addition to the main buildings, there are five portable classrooms that have been added to accommodate class size reduction and special programs, after school community programs, early childhood center, and a daycare center. We have recently undergone modernization including, a new facade, flooring and paint, classroom furniture, and the addition of a flexible instructional space and the installation of solar panels.

There is a pre-school/daycare on site - San Juan Batista Early Learning center. Pre-school parents are invited and encouraged to attend parent meetings (Parent Workshops, Kindergarten Readiness meetings) in the Spring when registration is open for kindergarten placement. Kindergarten registration materials are made available on-site and online for pre-school parents.

All students at Northwood will be prepared for the future in a safe, nurturing environment that inspires academic and social learning in order to be critical thinkers and active citizens in a global community.

Berryessa Union School District provides all students the skills to become lifelong learners and successful 21st century global citizens.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements (Most Recent Year)

General: The district places a strong emphasis on ensuring that all schools are safe, clean, environmentally friendly, mechanically functional and inviting for students, staff members, and the community. To assist in this effort, the district utilizes Facility Inspection Tool (FIT) developed by the State of California OPSC and local operations department developed inspection survey methods to keep facilities in compliance with all federal and state health and safety regulations. The district regularly inspects and reviews the condition of the school facilities and surrounding grounds. The district places the highest priority on those safeguards that impact the fire, life and safety protection of the students, staff, and school buildings. Below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Age of School Buildings: Northwood was opened in 1965. This school has 26 regular classrooms, a multipurpose room, a library, and an administration building. In addition to the main buildings, there are seven portable classrooms that have been added to accommodate significant student growth, special programs, after school community programs, and a daycare center.

Maintenance and Repair: District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order system process is used to ensure efficient service and highest priority is given to emergency repairs. At the time of publication, 100% of the school's restrooms on campus were in good working order. This site also had interior and exterior lighting upgrades completed through Prop. 39 initiatives in identified areas throughout the campus.

Cleaning Process and Schedule: The district has developed cleaning standards and schedules for all schools in the district. A summary of these standards and schedules is available at the school or the Maintenance & Operations office. The principal, with the guidance of the maintenance supervisor works daily with the custodial team to ensure that the cleaning standards are met, and that classrooms, restrooms, and campus grounds are kept clean, safe, and well-maintained.

Modernization Projects: All scheduled Modernization projects were completed as a part of (Measure L) during the 2016/17 school year.

School Facility Good Repair Status (Most Recent Year)

Using the **most recently collected** FIT data (or equivalent), provide the following:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair
- The year and month in which the data were collected
- The overall rating

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Mathematics (grades 3-8 and 11)	73	82	57	58	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

Opportunities for Parental Involvement (School Year 2019-20)

The Northwood PTA provides many venues for parent involvement. The Northwood School PTA is a visible and energetic group that raises funds for our students and school programs. The PTA board meets monthly while the general membership meets every other month. Our Northwood PTA is instrumental in fund raising to support classroom and school-wide activities. The PTA works to provide education and support to parents, to plan events that involve the school staff, students, and families, and to schedule assemblies. PTA plans and supports family and school community events, gives \$3,500 yearly for special enrichment assemblies for our students, sponsors the Scholastic Book Fair, and helps provide student scholarships for science camp and other enrichment trips. PTA also sponsors a special end-of-the-year activity for our greeters and other students who provide service to the school.

Throughout the school year, the Northwood School Site Council provides input, monitors, and approves the school plan and budget. Our school site council, comprised of four parent and four staff members, meets monthly to review school events, analyze our school plan and current academic and demographic data, monitor the Northwood budget, and consider school issues.

Many parents in our community volunteer in the classroom assisting teachers with curriculum or program needs, reading with students, demonstrating art and cooking activities and chaperoning field trips. A group of parents volunteer on a regular basis to bring the ABC Program from Project Cornerstone to our primary level students. These parents read stories and lead discussions around character building and asset development themes.

School leadership works with on-site resources including the School Social Worker and district Instructional Coaches to provide ongoing workshops and information sessions to engage parents in subjects like Social Emotional Learning and SBAC Testing Preparation and information. The goal of these sessions is to create long-term partnerships and shared understanding to promote student success.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan (School Year 2019-20)

Representatives from the Northwood staff participate on the Berryessa safe school committee. They communicate important information regarding the safety plan and procedures to the school staff. Northwood also has a site safety committee. Every year Northwood's school safety committee reviews the fire and earthquake drill procedures. Earthquake drill triage is performed in Northwood Park. The entire campus practices the emergency procedures for either earthquakes, fires, or campus lockdowns on a monthly basis. Our students become familiar with these emergency drill procedures and their purpose. The school safety committee updates these emergency procedures annually.

Every year, Northwood faculty, students, and PTA participate in Red Ribbon "Say No to Drugs" Week with special curriculum and ceremonies. Safety assemblies are held to review schoolwide rules, procedures, and expectations for behavior. The staff supervises school grounds during recess and before and after school. Since the south side of the Northwood School campus is exposed to Northwood Park, doors on this side of the campus are kept locked during the day to prevent any unwelcome intrusion into classrooms. We are working on providing each classroom with a walkie talkie for emergency communication. In addition, each classroom is outfitted with a container of emergency supplies for use in the event of an earthquake or other emergency.

Emergency information for students and staff members is kept on file in the office. Additionally, staff members annually fill out a safety survey and list any CPR, first aid, or other safety certification training that they may have so that their skills and training may be put to use in the event of an emergency.

Note: Cells with N/A values do not require data.

The California Department of Education issued guidance to LEAs on August 1, 2018, regarding how to calculate school-level per-pupil expenditures that will be reported on 2018-19 report cards.

Types of Services Funded (Fiscal Year 2018-19)

Individual school sites offer Supplemental Instruction (SI) to students who are below grade level. It is up to each individual school site to identify the students who need extra support based upon district benchmarks or teacher recommendations. Each school site selects certificated and classified staff to teach these SI classes, usually after school (1 – 3 days a week). Each school also identifies the curriculum that will be used. The majority of the school sites select computer-based programs where students can work independently at their current academic level. Some schools provide this time to receive help on their homework.

Professional Development (Most Recent Three Years)

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement	7	5	4

Professional Development this school year occurred on many different levels – before school started (summer of 2019) and ongoing throughout the 2019 – 2020 school year. The district office working with our site principals and curriculum leadership teams developed the scope/sequence of the professional development. Leadership teams reviewed student data produced from benchmark tests, ELPAC, and SBAC data, as well as staff feedback when developing the scope and sequence.

At the beginning of the school year, all certificated and classified staff participated in two days of professional development aligned to their instructional role and needs. TK-5 teachers received training on providing effective Tier 1 instruction in math and ELA. Special education staff, social workers and psychologists received training on topics pertinent to their needs such as All Learning is Social Emotional, TCI De-Escalation, Instructional Scaffolding to Assist and Support Student, and Data Collection and Behavior Management. Middle school staff received specialized training related to the content they teach, that focused on the social emotional element of learning as well as recently adopted curriculum. All middle school teachers participated in a workshop on understanding gender. Training for new teachers focused on introducing the district's curriculum and assessment programs. Classified staff participated in some sessions with their certificated colleagues in order to have the opportunity to collaborate while learning. They also attended other sessions designed to meet their specific professional needs.

During the school year middle school, science teachers were released up to three days to collaborate on implementation of the new science program. Middle school math and writing teachers scored and/or analyze student benchmarks during release days for each grade. 7th grade science teachers were released for 1-2 days for training on the district's comprehensive sexuality program. Additional training was offered on release day for special education teachers to support implementation of our dyslexia curriculum as well as special education components of our ELA programs.

Throughout the school year, we offered monthly professional development sessions in which all teachers participated (1.5 hours on 10 early release Thursday afternoons). Principals and district office administrators chose the topics for the 2019-2020 school year in alignment with the District focus on developing a multi-tiered system of support.

The Sobrato Early Academic Language (SEAL) program was implemented at six of our ten elementary schools in grades TK-3. The schools included were Cherrywood, Laneview, Summerdale, Brooktree, Toyon and Vinci Park. Teachers in the first two years of implementation received three two-day training modules each followed by a day of unit planning. Teachers in the third and fourth year of implementation participated in three days of unit planning. Contracted SEAL experts provided the module training sessions and three district instructional coaches facilitated the follow up planning PD sessions. Teachers were released from their classrooms for all of these PD days.

Four instructional coaches provided BTSA induction training for all teachers who qualified to receive BTSA training and support. Additionally, BUSD teachers provide PAR assistance to teachers who are in need of additional assistance. All teachers have access to an instructional coach so that they can receive follow up support on implementing new learning attended through professional development.

An MTSS committee and Differentiated Assistance Team received 3-5 days of training on change management facilitated by WestEd and the Santa Clara County Office of Education. Some members also participated in 3 training sessions of equity. Team members then trained principals during monthly professional development meetings. The focus of both teams aligned with the district goal of developing multi-tiered systems of support at each site.
