School Accountability Report Card

Reported Using Data from the 2018-19 School Year

Published During 2019-20

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2019-20)

Barbara Worth's Vision:

Barbara Worth Junior High School is a community which promotes maximum learning by utilizing evolving technology, research-based strategies, and provides an engaging curriculum that promotes creativity, diversity, and lifelong learning.

Barbara Worth's Mission, Goals, and Objectives:

To provide the type of education and school environment which will allow ALL students to develop to their highest potential by:

- 1) Providing a rigorous curriculum aligned to the Common Core State Standards.
- 2) Providing a safe and orderly environment in which to learn.
- 3) Providing higher level thinking and decision-making skills necessary for all aspects of life.
- 4) Providing academic assistance to ALL students.
- 5) Providing a variety of teaching techniques necessary to appeal to the various learning styles of the students.
- 6) Providing opportunities for students to work together and develop social skills in academic areas and extracurricular activities.
- 7) Providing opportunities for teachers to refine their teaching techniques and strategies.
- 8) Providing ways for the parents to be involved in the planning and improving of the instructional program.
- 9) Providing parents with techniques and strategies that will enable them to support their children's academic and social needs.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: "Misassignments" refers to the number of positions filled by teachers who lack legal authorization to teach that grade level, subject area, student group, etc.

*Total Teacher Misassignments includes the number of Misassignments of Teachers of English Learners.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

Year and month in which data were collected: September 2019

The school district held a public hearing on September 24, 2019 and on December 10, 2019, and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English Learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the school Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption.

The table displays information collected in September 2019 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements (Most Recent Year)

Barbara Worth Junior High School facilities were built in 1941 and modernized in 1992. The campus sits on nine acres and spans more than 67,400 square feet, consisting of 32 permanent classrooms, four portable classrooms, a cafeteria, a dining facility, a library, a sports field, a cardio lab and weight room, administrative offices, restrooms, and storage rooms. A gymnasium was added, available for school and community use at the beginning of the 2015-2016 school year.

The chart shows the results of the most recent school facilities inspection. While reviewing this report, please note that even minor discrepancies are reported in the inspection process. The items noted in the table have been corrected or are in the process of remediation.

Maintenance & Repair

The district administers a scheduled maintenance program, including regular facilities inspections, to ensure that all classrooms and facilities are well-maintained and in good repair. When necessary, the district takes appropriate actions to ensure campus facilities are in good working order and provide a clean and safe environment for all members of the school community. A work order process is used to ensure efficient service and highest priority to emergency repairs. At the time of publication, 100% of restrooms on campus were in good working order. Safety walks by school-site personnel are conducted on a monthly basis to address safety-related concerns, again through the work order process.

Cleaning Process & Schedule

A team of four full-time custodians as well as crew of gardeners ensure classrooms, restrooms, and campus grounds are kept clean and safe everyday.

School Facility Good Repair Status (Most Recent Year)

Using the **most recently collected** FIT data (or equivalent), provide the following:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair
- The year and month in which the data were collected
- The overall rating

Year and month of the most recent FIT report: 8/8/2019

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Mathematics (grades 3-8 and 11)	20	24	29	32	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

Opportunities for Parental Involvement (School Year 2019-20)

Barbara Worth Junior High School realizes the positive correlation between parent involvement and successful students. For this reason, Barbara Worth continually searches for avenues to involve parents and community to participate in the education of our students.

Barbara Worth Junior High School is committed to encouraging a strong parent-staff bond. This mutual involvement will help to promote the social, emotional, and academic growth of the students. The entire staff at Barbara Worth Junior High is available to lend guidance, answer questions and provide assistance whenever the need arises.

Barbara Worth is convinced that much of its success is the product of parent volunteers who take an active role in their children's education. These programs were created to give parents and community members an opportunity to express their ideas, concerns, and feelings. Some of the parent-related groups include:

- School Site Council (SSC)
- Parent Volunteer Program
- English Language Advisory Committee (ELAC)
- Parent Promotion Committee

The purpose of our School Site Council and the English Language Advisory Committee is multifaceted. It includes the promotion of academic excellence while creating a spirit of cooperation between parents, staff, and students; the development of the School Plan for Student Achievement and its implementation, assessment, and modification to reflect changing improvement needs and priorities; and it creates a forum for questions relating to the school and its improvement.

The staff of Barbara Worth Junior High School continues to support parent involvement and parent participation in their children's education. Grade level/ staff collaborate to provide for the needs of parents to ensure their involvement and that their children's progress is on-going. For additional information about organized opportunities for parent involvement or for parents who wish to participate in Barbara Worth's committees, school activities, or become volunteers may contact Kelley Marmolejo-Principal at (760) 344-2153.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan (School Year 2019-20)

Barbara Worth Junior High School provides a safe, clean environment for students, staff, and volunteers. The school complies with all laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. Fire, earthquake, active shooter/secure campus and disaster drills are held monthly throughout the school year. The school is a closed campus and all visitors must check in at the front office and receive a RAPTOR visitor's badge. School grounds are monitored before, during, and after school by assigned staff including administration, teachers, campus security officers, and noon duty supervisors.

Brawley Elementary School District established a detailed disaster plan for each of its schools in the event of emergencies. The plan clearly explains specific duties and responsibilities for all levels of staff and site personnel, including aides, custodians, health services personnel, cafeteria staff, and the librarian, and is designed to ensure student and staff safety during a disaster. The Comprehensive Safety Plan was developed by the district in consultation with local law enforcement in order to comply with Senate Bill 187 of 1997. The plan is updated and amended annually by the School Site Council in order to ensure that it is properly implemented. An updated copy of the plan is available to the public at the district office.

The Safety Plan was designed to assist in preparing for emergencies, managing emergency response efforts, and maintaining a safe school environment. The plan requires identification of security needs, development of prevention and intervention techniques, evaluation of physical facilities, and communication with staff and students. Components of the Comprehensive Safety Plan include child abuse reporting procedures, teacher notification of dangerous pupil procedures, disaster response procedures, procedures for safe ingress and egress from school, the sexual harassment policy, the dress code, and procedures related to the compliance of existing laws as they affect school safety.

Barbara Worth Junior High's plan was last updated and reviewed with staff in October of 2019. New information is immediately distributed to all staff.

Note: Cells with N/A values do not require data.

The California Department of Education issued guidance to LEAs on August 1, 2018, regarding how to calculate school-level per-pupil expenditures that will be reported on 2018-19 report cards.

Types of Services Funded (Fiscal Year 2018-19)

Brawley Elementary School District spent an average of \$13,296 to educate each student. The figures shown in the table reflect the direct cost of educational services, per average daily attendance, excluding food services, facilities acquisition and construction, and certain other expenditures. This calculation is required by law annually and is compared with other districts statewide.

Supplemental/Restricted expenditures come from money whose use is controlled by law or donor. Money designated for specific purposes by the district or governing board is not considered restricted. Basic unrestricted expenditures, except for general guidelines, is not controlled by law or donor.

Professional Development (Most Recent Three Years)

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement			

During the 17-18 school year, the BESD plan for action was titled "Championing Student Learning". This plan included intensive work with WestEd to provide English Learners with language instruction coupled with CCSS. In addition, we have partnered with COEs to provide ELA Unit Development planning for our grade levels, as well as providing math support for the BESD Math Committee. We will continue to provide time for collaboration to support our endeavor to become a professional learning community. Our PD Plan for 18-19 included a strand for new teachers, as well as ongoing professional development in supporting our Rtl supplemental programs. We had a large group of educators participate in a BeGLAD Pilot in 18-19; educators received 6 intensive days of professional development. In addition, we are now in our third year of PBIS training, with the goal of supporting students not only academically, but also behaviorally. Our focus for 19-20 is to create a sustainable model that includes ongoing training in the following areas: BeGLAD certification, PBIS, grade level math collaboration focused on content and mathematical practices, and new teacher instructional support. This year, we have also begun our journey with Professional Learning Communities. Finally, this is our first year to introduce Co-Teaching in two of our schools, with a goal of including all schools in the future. We continue to utilize the expertise of our Academic Coaches to provide differentiated teacher support at the site level. While our goal is to keep teachers in the classroom, we offer training scheduled during the school day, as well as after school. Our site Educational Technology Mentors continue to offer hands-on support to their site teachers, including training opportunities scheduled at the end of the school day.
