School Description

The Lakeview Elementary School Community believes that students can reach their highest potential and become lifelong learners through a variety of challenging educational opportunities. Such opportunities include a rigorous standards-based curriculum, differentiated instruction, and visual and performing creative outlets. Our school continues to utilize technology as a tool which promotes critical thinking and discovery, and also makes learning more accessible to each student. Lakeview educators are committed to growing professionally by learning about innovative classrooms and teaching practices. This allows our classrooms to exemplify best teaching practices. Lakeview School enjoys strong support from our parent community. Our teachers, parents, and staff believe in supporting every student attending this school with the means necessary to ensure student success. Lakeview enjoys a strong partnership with our Parent/Teacher Association. The Lakeview PTA offers several fundraising opportunities throughout the year for the purpose of raising funds for the purpose of enhancing the educational experience for our students. PTA funds provide transportation for students to attend off site educational field trips such as the Star of India, BizTown, the Marine Science Floating Lab, etc. PTA also provides educational assemblies for students on topics such as Anti-Bullying, Red Ribbon Week, Science Exploration, Literacy, etc. In addition, our PTA helps to supplement our educational program by providing classroom materials & supplies, educational software and Physical Education equipment.

Lakeview School offers its students a comprehensive program to meet each child's unique academic, physical and emotional needs. Our strong curricular program is a balance of basic skills instruction, critical-thinking activities, active participatory learning and challenging enrichment opportunities meeting all of the California Content Standards. Our utilization of technology is top notch, with a minimum of three online computers in every classroom. Every student in grades 2, 3, 4, and 5 has access to an individual iPad, pre-loaded with standards-based learning content. In the remaining grade levels, students have group sets of iPads to use during the academic day. We incorporate Apple TV technology and curricular enhancements such as Google Classroom in grades K through 5. Online programs allow us to implement an on-site "blended learning" model for our students. In addition, we offer 11 Spanish Immersion classes. These students are taught part of the day in Spanish, and part of the day in English. Students in our immersion program develop life-long advantages by becoming bilingual, bi-literate and culturally competent citizens. We firmly believe in educating the whole student by offering Band and music to students in grades 2-5. All students in Grades K-5 receive the benefit of art instruction offered by trained art specialists through the Art Docent Program. District multiple measures are used to assess the academic progress of each student several times yearly and gauge the overall strength of our academic program.

District testing includes the Performance Assessment of Writing Skills, Reading Inventories, (grades 2-5), and the district adopted Reading Assessment (grades K-5). Results of these assessments and more are shared with parents and used as ongoing assessments to modify instruction. Teachers meet weekly at Professional Learning Communities to design instruction to meet the needs of students based on four primary questions: 1) What do we want our students to learn? 2) How will we know when they have learned it? 3) How will we respond when they haven't learned it? 4) How will we respond when they already know it?

We use the previously mentioned data as well as team designed formative assessment data to answer these questions and inform our instruction. Lakeview Elementary School has adopted a Positive Behavior Interventions & Supports (PBIS) program as a means to provide a positive, safe and respectful environment for all members of the school community. After-school enrichment programs for students include: aerobic dance, reading, math, music, and science classes, focusing on various topics, are offered throughout the school year. Leadership opportunities are provided offering students in serving the school community through such means as Safety Patrol, Peace Patrol, and Lakeview Leadership.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

The main fact about textbooks that the Williams legislation calls for described whether schools have enough books in core classes for all students. The law also asks districts to reveal whether those books are presenting what the California Content Standards call for.

School Facility Conditions and Planned Improvements (Most Recent Year)

Lakeview Elementary School opened in September of 1959. Some of our classrooms have been updated and maintained to provide a safe and stimulating learning environment. The Lakeside Union School District team works diligently to ensure that all sites are well-maintained and undergo maintenance on a regular basis. An online system of work orders is implemented to assist in maintenance requests. Sites are cleaned, painted and carpeted on a regular basis. Restrooms and fire alarms systems are also maintained and updated as necessary. Upgraded waterless urinals have been installed in the boy's restrooms to provide sanitation and energy efficiency. Heating and cooling systems are regularly evaluated to ensure energy efficient use. The passing of Proposition V by the Lakeside Community allowed our site to build a new Multi-purpose room and office space and teacher workroom. State of the art office spaces, including a health office, and food service area, provide an energy efficient, attractive and healthy environment for our students. In the summer of 2012, two very old classrooms were torn down and replaced with updated modular classrooms. The Kindergarten playground was rearranged and improved for safety and efficiency. New play equipment was added on both the lower and upper playgrounds that meet safety requirements supported by the JPA. Our school site is cleaned daily and any graffiti removed immediately by custodial staff. Each and every student takes pride in the appearance of their school and incentives are provided for campus beautification.

To determine the condition of our facilities, our district sent experts from our facilities team to perform an inspection using a survey called the Facilities Inspection Tool, which is issued by the Office of Public School Construction.

Based on that survey, we've answered the questions you see on this report. Please note that the information reflects the condition of our buildings as of the date of the report. Since that time, those conditions may have changed.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2019-20)

One of Lakeview School's greatest assets is community and parent involvement. The many parent and community volunteers who regularly read and volunteer in classrooms and with school-wide activities demonstrate this strength. Ongoing home/school communication, including weekly email blasts relay school & community events and activities and important information. School and PTA newsletters empower parents and teachers to stay informed and involved as partners in ensuring each student's success. In addition, our electronic marquee guarantees visible current information daily.

Each teacher shares their instructional program, classroom policies and procedures with parents at our "Back To School" presentation in September. Additionally, parent/teacher conferences are held for every student each December and March. Open House, Family Lunch Day, Field Day, Science Nights, The Father Daughter Dance, Founders Day Dinner, Mother/Son Day, Bicycle Rodeo, Book Fairs, Art Docent Programs, classroom performances, and the annual Fall Carnival, provide numerous opportunities for parent involvement. Every grade level presents at least one special culminating instructional activity each year that encourages parent attendance. Our annual holiday program highlights our music program. Students in grades 2, 3, and 4 play instruments and perform holiday songs in both English and Spanish.

Parents also play a significant role in the life of the school community through their involvement in ongoing committee work including the Lakeview School Site Council, the District Advisory Council, the District English Learners Advisory Council, the Run for the Arts Committee, School Safety Committee, PTA, and the Festival of the Arts Committee. Lakeview parents are actively involved in our ongoing Art Docent Program that places trained parent volunteers in classrooms teaching specifically planned art lessons. Parents are trained on various technology-based programs such as Accelerated Reader, Read Naturally, and Smarty Ants for the purpose of providing meaningful assistance while volunteering in the classroom. Parents, teachers and administrators from all district schools were represented on several special committees during the 2018-2019 school year, Health and Wellness committee, Schools of the Future, Playground Safety Committee, School Facilities, Science, and Social Studies committees. The Lakeview PTA has received recognition for outstanding service to children from local, state and national organizations. Our PTA is responsible for organizing our parent task force. Each year, the Lakeview PTA identifies needs and opportunities for the school, sets goals that inform and involve parents that inspire and encourage students, and raises funds to assist financially in the achievement of these goals.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

The primary purpose of California's schools is to educate children and provide them with the opportunity to participate fully in society as adults. However, for education to be successful, we must provide a safe and secure learning community in which teachers can teach and children can learn. Lakeview Elementary School updated our School Safety Plan during the 2018-2019 school year and we continue to review and revise our plan annually. This plan was reviewed and updated by the School Safety Committee with representatives from the staff, parents, community, local law enforcement, and emergency service agencies. The plan is based on the recommended safe school model, consisting of four interacting components encompassing the whole school environment, the effects of these four components on the school environment, and ways in which the components interrelate with other school improvement efforts. These four components are personal characteristics of students and staff, the school's physical environment, the school's social environment, and the school's culture.

The plan also includes various Lakeside Union School District and Lakeview Elementary School policies and procedures relating to campus and community safety issues such as child abuse, disaster routines, dress code, school rules, sexual harassment and weapons on campus. Teachers share important parts of this plan with students as appropriate. Fire and various disaster drills are held monthly. The complete plan is on file in the school office and is reviewed with staff and our School Site Council annually. Quarterly Community Safety Meetings are held with representatives from the sites, PTA, Sheriff's Department, Highway Patrol, Fire Department, and San Diego County to discuss safety issues for each of the sites. The school also received a "Safe Routes To School" grant in 2012, which provided the installation of sidewalks in our neighborhood in an effort to protect walking students and parents from moving vehicles.

Campus security and student safety is always a priority at Lakeview Elementary. We employ seven campus student supervisors and one playground coordinator for our lunchtime and recess, one additional duty during morning breakfast, and one student supervisor for our kindergarten playground. Campus Student Supervisors have daily check-ins and monthly meetings to ensure that they have the appropriate training and support they need to be confident with their duties. Walkie-talkies and ear pieces have been purchased so that playground supervisors and teachers are in constant communication with each other and the school office. Our Playground Coordinator takes regular inventory and maintains playground equipment, and provide safe and fun activities for our students that teach cooperation skills and promote a healthy lifestyle. All visitors to our campus must register at the front desk by requesting a name tag from our IDENT-A-KID registration system. Name tags, which are easily visible, are printed and a record of our visitors is kept secure.

Professional Development provided for Teachers

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement			

Lakeview believes in making decisions for staff development based on multiple forms of student achievement data. A variety of assessments including SBAC, district benchmarks, adopted curricular assessments, and site-based formative assessments have led Lakeview to pursue professional development in several areas. All Lakeview teachers have received in-depth training in the area of mathematics from the Math Transformations team. Teachers are also provided with release days to work in their grade level teams with a Math Transformations coach. Lakeview teachers participated in an in-service series focused on the recently adopted common core aligned Language Arts curriculum, and common core mathematics in-service and coaching. All grade-level teachers are also scheduled to attend the Learning Headquarters Common Core aligned writing training. Lakeview benefits from regular coaching from technology integration specialists who are employed by the district. Teachers have also attended technology-focused conferences such as the CUE. Many teachers also augment the teaching of Science through their participation in the development of the Next Generation Science Standards and the IDEAS grant. Immersion teachers have attended multiple conferences which focused on language acquisition. Staff members from

Mainstream, SDC, and RSP classes attended trainings which focused on inclusion and meeting the needs of all students. Six members of the Lakeview staff also received multiple days of training on Positive Behavior Intervention and Supports (PBIS.) These teacher leaders then developed a program to train their colleagues. This PBIS Team provides ongoing training for staff at monthly staff meetings.

Across the District:

SCIENCE –

The primary areas of focus for staff and administrator development have been related to the adoption of the Next Generation Science Standards (NGSS) and moving teachers and administrators into implementation. Focus areas include: 1) Building leadership capacity, 2) Scaling up Professional Learning and Support to include all district teachers, 3) Planning instruction aligned to the Next Generation Science Standards, 4) Collaborative planning tools for instruction, and 5) Addressing supplemental instructional materials.

Professional development needs were determined via district-wide Needs Assessment Surveys, LUSD Core Leadership Team/California Next Generation Science Standards Early Implementation Initiative, and feedback data collected via prior professional learning events in the district.

Professional Learning for the 2018-2019 school year will address all levels/cohorts of teachers and administrators in the district through continued leadership, pedagogy, and content training. This will occur primarily through science lesson study for all TK-8 teachers of science to include MS ELA teachers, an intensive summer institute, district Professional Development days, and a review of publisher materials.

Core Leadership Team and established Teacher Leaders will continue to receive training in the areas of Leadership, Facilitation of Professional Learning for their peers, and deepening understanding of NGSS innovations, planning, and pedagogy via the NGSS Early Implementation Initiative Program. “Expansion” (all other district teachers) teachers will be provided NGSS professional learning facilitated by their district Teacher Leader peers through the established lesson study model, Summer Institute opportunities, and district PD days.

Other opportunities for science professional learning include supplemental material/planning work supported by a CA Regional Environmental Education Community (CREEC) partnership, and instructional material evaluation.

Administrator professional learning will address NGSS innovations, strategies to identify and support high quality science instruction (observations and feedback) and sustainability. This support will occur both on site and through district management meetings via the Early Implementer Initiative.

Next Generation Science Standards Teacher Leaders, Expansion Teachers, and administrators are supported via NGSS Early Implementation Initiative Project Director, on-site Core Leadership Team members and/or Teacher Leaders.

MATH –

LUSD focused on mathematics as a professional development goal in response to low performance scores on the CAASPP and to support teachers in the Common Core Standards for Mathematics.

Professional development in mathematics is delivered in three primary ways: 1) Workshops (after school, on professional growth days, and during teacher release time), 2) Individual and small group site-based coaching/mentoring, and 3) Conference attendance.

Teachers are supported in refining their mathematics instruction and use of curriculum materials through: 1) Workshops focused on the content and pedagogy relevant to the math content they teach, vertical progression of content, and the Common Core content and practice standards 2) Workshops/guided collaboration focused on unit and lesson design with their curriculum materials (within school and cross-school), 3) In-class coaching both in one-on-one and small groups, and 4) Lesson Study in grade-level groups. Additionally, principals attend all teacher professional learning activities and receive additional training from a leadership perspective.

Social/Emotional/Behavioral Support -

Social-emotional learning and support and behavioral support are focus areas in the 18-19 school year.

PBIS remains in place at all sites. School Counselors continue the work of supporting the social and emotional needs of students. Two Behavior Specialists and two Behavior Intervention Aides are also available to support students with the most intensive behavioral needs. Two MTSS Teachers on Special Assignment (TOSAs) were added to support the development of social/emotional/behavioral intervention systems at four of our Elementary sites.

Professional Development and Coaching have focused on Conscious Classroom Management strategies. Conscious Classroom Teaching provides teachers with professional development and coaching on Tier I and II behavioral strategies. MTSS TOSAs are also available to coach on classroom management strategies and student behavior plans.

Leadership -

Lakeside Union School District continues to support principal growth through Professional Development and has deepened our support of teacher leaders in the 2018-2019 school year. Teacher leaders (Facilitators) from each site received training in mentoring and coaching as well as content support in mathematics and 21st Century Learning. The Facilitators, in turn, provide on-site coaching to their respective staffs.

Types of Services Funded

Lakeview elementary school operates from several different financial categories. The largest group of monies at our school is our LCFF funds. These are funds provided to schools by the state. These monies are used with input from the School Site Council for supplies, equipment, programs, technologies, and professional development that are servicing the general population of students in a regular classroom setting.

Special funding from the state is also provided for specific groups of students. These monies are referred to as categorical funds and are designated to address a specific group of students with programs and instruction in addition to the instruction they receive during the classroom routine. Students learning English or who may represent a lower socio-economic demographic may work with specialized curriculum, or receive additional learning time with materials and services provided by these funds.

To make comparisons possible across schools and districts of varying sizes, we first report our overall spending per student. We base our calculations on our average daily attendance (ADA).

We've broken down expenditures by the types of funds used to pay for them. Unrestricted funds can be used for any lawful purpose. Restricted funds, however, must be spent for specific purposes set out by legal requirements or the donor. Examples include funding for instructional materials, economic impact aid, and teacher and principal training funds.

Next to the figures for the district and state averages, we show the percentage by which the school's spending varies from the district and state averages.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
