School Description

San Mateo Park Elementary School is preparing our students to be actively engaged in their own learning as they: develop confidence in their ability to solve problems; become critical thinkers who communicate their ideas clearly; challenge themselves to reach their highest potential; participate in collaborative conversations with their peers; practice socially responsible behaviors by making wise choices; make real life connections to the world around them; and are provided with opportunities to become lifelong learners. Park School's supportive and positive environment encourages students to be safe, respectful and responsible. Students are happy to come to school every day. They know that there are adults at school who care about them and who create a safe and supportive learning environment where they can learn and grow.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)

Quality, Currency, Availability of Textbooks and Instructional Materials

The San Mateo-Foster City School District's highest priority is to work together to ensure that every student has access to the California core curriculum through appropriate instructional materials. Pursuant to the settlement of Williams vs. the State of California, all students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption.

School Facility Conditions and Planned Improvements (Most Recent Year)

The San Mateo-Foster City School District makes great efforts to ensure that all schools are clean, safe and functional. To assist in these efforts, the District has developed and the Board of Trustees has approved, a District-wide Facilities Implementation Master Plan in order to bring each school site up to district facility standards for educational excellence. To support that effort, in 2008 the community passed a \$175 million facilities bond to repair, renovate, upgrade and increase capacity at District schools. Bond funding has been used to upgrade facilities over the past 10 years. A lunch shade structure and age-appropriate play structures were added to the campus, student classroom furniture was replaced, exterior painting was completed and perimeter fencing was installed for school security.

In 2015, the community once again passed a \$142 million bond (Measure X). Phase I is well underway, adding classrooms and a gym at Abbott and Borel and a gym at Bayside Academy, in addition to a new fourth elementary school in Foster City.

With the passing of the State Facilities Bond in November 2016, the District will seek any State Modernization matching funds on a percentage basis to assist with the expenditures for any major planned modernization work projects.

The District's Maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner, while the Operations staff ensures that the schools are kept clean. A work order process through a program called "Akita Box" is used to ensure efficient service; emergency repairs are given the highest priority. In addition to responding to emergency repairs in a timely manner, the maintenance department schedules extra "preventive maintenance" days to catch up on routine repairs and enhancements.

Most District schools are staffed with at least one day and one night custodian to provide a clean and hazard-free environment. Some of the larger schools, particularly the middle schools, are staffed with one day custodian and two or three night custodians. The Principal, along with the maintenance staff, work with the custodians to develop cleaning schedules to ensure clean and safe schools. The custodial staff follows the District's cleaning standards, which are available at the District Office. In addition, the District uses a facility survey instrument developed by the State of California's Office of Public School Construction to evaluate the conditions of each schools facility. This evaluation is completed annually for each site. The following school site inspection was performed during the month of December 2019 to determine the school facility's good repair status.

School Facility Good Repair Status (Most Recent Year)

Year and month in which data were collected: 12/04/19

| System Inspected | Repair Status | Repair Needed and Action Taken or Planned |
|--|---------------|--|
| Systems: Gas Leaks, Mechanical/HVAC, Sewer | Good | Pod 2 - Rooms 13, 14, 11: Issues with too much heat in afternoon will be investigated. Thermostat in room 30 is broken and will be repaired. |

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

CAASPP Test Results in ELA and Mathematics for All Students

Percentage of Students Meeting or Exceeding the State Standard

| Subject | School 17-18 | School 18-19 | District 17-18 | District 18-19 | State 17-18 | State 18-19 |
|---------|--------------|--------------|----------------|----------------|-------------|-------------|
| ELA | 33 | 37 | 62 | 62 | 50 | 50 |
| Math | 23 | 27 | 55 | 56 | 38 | 39 |

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

San Mateo Park Elementary School has a positive school climate where everyone feels welcome. We have a supportive PTA, English Learner Advisory Committee (ELAC) and School Site Council who consistently put our students first when any decisions are made. There are numerous ways for parents to get involved whether in the classroom as volunteers, chaperones for field trips, or participation at any of our school-wide events such as Walk-A-Jog, Math Night, or Science Night. The diversity of our community is celebrated and students learn to appreciate a global awareness and understanding of other cultures.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

The San Mateo-Foster City District Handbook, updated each school year, contains the "Guiding Principles for All SMFCSD School Communities" aimed at creating a safe and caring school community where all students and families feel welcomed, valued and respected. These Guiding Principles (respect, responsibility, appreciation of differences, honesty, safety and life-long learning) communicate the expectations for behavior to students, parents, teachers and administrators and are updated and reviewed yearly. The rules were developed to be consistent with State Education Code, policies of the San Mateo-Foster City School District Board of Trustees and the School District's Strategic Plan.

Comprehensive School Safety Plans, developed individually for each school in conjunction with the San Mateo County Office of Education and City Services, include disaster preparedness and emergency procedures. The School Safety Plans provide role responsibility guidelines and processes required to address major emergencies. Annually, the District utilizes the services of School Innovations & Achievement to review each school's Safety Plan to determine if all required components are included and to offer feedback and suggestions.

California Education Code Section 32280 requires school fire evacuation drills, as well as one law enforcement lockdown drill, and the District organizes two District-wide drills each year, using different scenarios that test the Big Five Safety Protocols (Shelter in Place, Secure Campus, Drop, Cover and Hold On, Lockdown/Barricade and Evacuation). These drills involve a District Command Center for communication with each school/program site and full emergency set-up. As a District collaborating with San Mateo County and the San Mateo County Office of Education, we participate yearly in Big Five training for staff.

Professional Development

The San Mateo-Foster City School District is committed to providing quality professional development opportunities for all staff. Training is available through three professional development days, staff meetings, scheduled release times during the school year, on early release days and during the summer. Our primary focus for professional development is aligning instruction to meet the California State Standards and the implementation of our adopted materials for mathematics and English Language Arts/English Language development. Professional learning opportunities integrate content development and research-based instructional practices to meet the needs of all learners, especially English Learners, Students with Disabilities and Socio-economically Disadvantaged. Professional Development in SMFCSD is grounded in the California State Standards and the research from the California State Adopted ELA/ELD, Mathematics and NGSS Frameworks. Elementary teachers have the opportunity for training in language and literacy, science and mathematics. Middle School teachers receive subject specific professional development on the California Standards and strategies to support conceptual understanding and improve student learning.

Teachers engage in a variety of Professional Development structures including, site or department specific PD, teacher learning communities within and across sites and in departments or grade levels - both in large and small groups. Our district also coordinates district-level training with site-based professional development opportunities based on site data. Over the last year, district and site leaders developed professional learning opportunities by evaluating and adjusting our professional growth strategies, first by gathering immediate feedback (e.g., exit tickets and feedback surveys) from teacher and leader training and collaboration sessions. This data was then used to adjust and focus training and collaboration strategies during the year. We also evaluate and adjust professional growth strategies through on-going examination of student performance data (academic and wellness). District leadership meets quarterly with school leaders to review current student data, to identify the professional growth causes for student successes and challenges, to monitor the impact of key professional growth strategies and to plan forward. This work then informs the district's LCAP and each site's SPSA. In parallel with this work, site leaders lead the same process with teacher teams using more specific data (e.g. grade-level and classroom data), where they couple that data with teacher reflections on their professional learning and plan month-to-month adjustments in professional learning strategies and yearly adjustments in their SPSAs. District leaders also lead a similar process with SMFCSD teacher union representatives to elicit their feedback on the district professional growth strategies and to get their recommendations for strategy adjustments in the district LCAP. Additionally, starting this year, SMFCSD will gather once-a-year survey feedback from teachers on their professional learning needs and on their experience of current strategies which will inform yearly adjustments to LCAP and SPSA professional growth strategies.

Our beginning teachers also receive additional professional development provided by our District-based Induction program. Veteran teachers can participate in a Peer Assistance Review (PAR) program for individual support.

The California Department of Education issued guidance to LEAs on August 1, 2018, regarding how to calculate school-level per-pupil expenditures that will be reported on 2018-19 report cards.

Types of Services Funded

The District funds a variety of items through the General Fund with funding from both the Local Control Funding Formula (LCFF) and a few Federal & State categorical programs. They are: Personnel salaries and benefits (i.e. certificated, classified, and administrators), Direct instruction (i.e. instructional aides, textbooks, other instructional materials), Instructional support (i.e. clerical, support staff, librarians, library aides), Pupil services (i.e. GATE, English Learners program, physical and mental health professionals, attendance clerks), Facilities (i.e. costs of repairs, replacement and upkeep of buildings), Maintenance and Operations (i.e. custodians, building trades technicians, grounds maintenance), Transportation, and Special Education (i.e. speech, occupational therapy, psychologists).

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
