School Accountability Report Card

Reported Using Data from the 2018-19 School Year

Published During 2019-20

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2019-20)

Mission Statement

The mission of Paul Revere Elementary School is to provide a high-quality education to a diverse population of children with focus on the mastery of skills that will enable them to live productively and competitively in a global society as responsible, confident, and enthusiastic lifelong learners.

School Profile

Paul Revere Elementary School follows a single-track calendar and serves students in grades TK-6. Originally built in 1960 with a massive modernization and reconstruction project completed in January of 2006, Paul Revere is a school-wide Title I school that also provides State Pre-School classes on traditional schedules for 3- and 4-year old children. This school year, enrollment is approximately 806 students in grades TK-6th in General and Special Education classes.

Approximately 91% of our students are Hispanic/Latino, 55% are identified as English learners, and 80% of our students participate in the free/reduced lunch program.

Instructional Program

The belief that all children can learn and develop into confident readers and critical thinkers is emphasized by qualified staff who provide all students a rigorous and challenging instructional program. Our staff embraces a collaborative team approach in ensuring that all students have access to the core curriculum through the use of effective instructional strategies, classroom practices that build on community, timely progress monitoring, and detailed analysis of student mastery of the standards-based curriculum. Maintaining a positive, scholarly school culture is a focus at Paul Revere School.

Response to Intervention

Students in the General Education setting who are struggling academically are provided with systematic intervention strategies to support their identified academic needs. This year, two Teachers on Special Assignment are contracted to support students in grades K-6 who require the additional assistance in reading. Children are selected for participation based on an on-going diagnostic assessment of essential skills by their classroom teacher. Both Teachers on Special Assignment coordinate with the classroom teachers to ensure targeted skills are explicitly taught in the program. Children are monitored and re-assessed bi-monthly, monthly, or quarterly depending on their level and moved in and out of the intervention program throughout the year based on their progress. Additionally, Paul Revere school maintains an active School Study Team that meets monthly to discuss the needs of at-risk students having difficulty in areas of academics, behavior, health, attendance, and family issues. A team of specialists also work together with staff and families to provide specific interventions for students identified with learning disabilities. Maintaining a positive, scholarly school culture is a focus at Paul Revere School.

A. Conditions of Learning**State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

School Facility Conditions and Planned Improvements (Most Recent Year)

Inspection Date: 10/02/2019

Average Percentage of 8 categories evaluated: 98.42% Overall rating: GOOD

General: The District takes great effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the District uses a facility survey instrument developed by the State of California Office of Public School Construction. Safety inspections take place on a quarterly basis at all sites. Below is more specific information on the condition of the school and efforts made to ensure that students are provided with a clean, safe, and functioning learning environment.

Maintenance and Repair: District maintenance staff ensures that repairs necessary to keep the school maintained and in working order are completed in a timely manner. An electronic work order process is used to ensure timely and efficient service. Emergency repairs have highest priority. A maintenance worker is assigned to the site, and is usually on campus once every week. No emergency repair needs exist at this site.

Cleaning Process and Schedule: The District has standard cleaning procedures and guidelines used at each school site. Cleaning schedules are developed jointly between the principal and custodial staff to ensure a clean and safe school. Since January of 2006, the District has implemented the "General Deep Cleaning" crew procedure. On average, once every 10 months all schools are being deep cleaned on a rotation schedule.

The District's completed deferred maintenance plan is available at the Operations Center at 1411 S. Anaheim Blvd. Anaheim, CA 92805.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Mathematics (grades 3-8 and 11)	24	26	25	28	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

Opportunities for Parental Involvement (School Year 2019-20)

Parents are important partners in our instructional program and we provide a variety of opportunities for parent involvement at Paul Revere School. Two committees that are program-related and very active in the community are the School Site Council/English Learner Advisory Committee and PTA. These elected positions allow parents to learn specific information that promotes informed input regarding the school's daily programs. Parents are also encouraged to volunteer during the school day in and out of classrooms and to participate in leading special activities/events or serving in district programs such as the Parent Leadership Institute. During the year, we offer numerous opportunities for parent education through monthly Cafecitos (coffee chats) with the Principal and counselor, focused academic workshops on topics such as parenting, technology, financial literacy, stress management, nutrition, and Physical Education to support our distinguishing practice of Health and Fitness. Also offered are Cuentos Familiares, Ten Commandments of Education, technology-focused workshops, parent learning walks, and numerous opportunities to volunteer through Girl Scouts and monthly Food Pantries, which are two special programs sponsored by United Way through a partnership grant. A community liaison is available to recruit, assist, and engage parents in all school programs or to connect them with necessary services and resources.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan (School Year 2019-20)

Most recent review date: 12/05/2019

Each year Paul Revere School reviews and updates its comprehensive School Safety Plan and a copy is recorded with Risk Management in the District Office. Prior to adoption of the School Safety Plan, the School Site Council and School Safety Plan Committee holds a public meeting at the school site to gather input and feedback. The School Safety Plan covers four components:

- Mission and Vision Statements
- School Programs and Practices
- Data Analysis & Recommendations
- Component One: People and Programs
- Component Two: Physical Environment

The school safety plan is a public document and will be readily available for inspection at the school site and at the district office.

Professional Development (Most Recent Three Years)

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement	3	2	2

The vision of AESD is to create an exceptional learning environment that engages, challenges, and supports all students so that they thrive and achieve their academic potential every year, while preparing them to pursue college and career opportunities to become competitive global citizens. The vision for e²STEAM-D (equitable and engaging science, technology, engineering, art, math and dual language immersion) education in Anaheim Elementary School District is to empower school communities to integrate science, technology, engineering, arts, mathematics, and Dual Language Immersion through the process of critical thinking, communication, creativity, and collaboration to foster innovation not just for today, but the future.

Core Strategy: In order to increase the achievement of all students and close the achievement gap, all professionals will build meaningful student relationships and collaborate in data-informed learning communities to ensure the engagement of all students in a rigorous curriculum.

Professional Learning is offered in a variety of flexible formats and structures to meet the diverse professional and personal needs of teachers. Such structures include both in person and virtual training and are offered after school, during off track time, on Saturdays and/ or through the provision of a substitute when possible. Additionally, all schools are provided with on site specific professional development as needed through district curriculum specialist and off site conference attendance. Job embedded professional learning is provided by a site instructional coach and/or facilitated through both peer learning opportunities. All schools have a full time instructional coach who facilitate a student centered coaching framework and maximize individualized professional learning for teachers through lesson studies, co-planning/teaching, PLCs, peer learning walks and provide professional learning.

Professional Learning areas of focused are identified through analysis of both formative and summative data. All unduplicated student groups ELA and Math summative data as reported by summative and interim CAASPP test items indicate a gap of achievement from the standard met indicator.

To meet these identified students needs the following professional learning has transpired:

2019-20

- All Second and Third grade teachers will have participated in a one day training on implementing Guided Reading in small groups as a complement to the district adopted English Language Arts Curriculum.
- All Second and Third grade teacher will have participated in a one day training around differentiated small group instruction.
- Teachers in grades 4-6 will be afforded the opportunity to participate in a one day training around differentiated small group instruction.
- Selected schools and teachers in Grades K-2 will be trained in Cognitively Guided Instructional strategies.

2018-19

- All Kindergarten & First grade teachers participated in a one day training on implementing Guided Reading in small groups as a complement to the district adopted Benchmark curriculum-based skill instruction.
- All Kindergarten through Second grade teachers participated in a one day training around differentiated small group instruction.

2017-18

- All staff, certificated and credentialed, received training in responding to students with Adverse Childhood Experiences (ACEs) including use of Restorative Circles to support the district's instructional focus of social emotional
- All certificated educators participated in two days of professional learning around the the ELA/ELD Framework and our newly adopted Benchmark Advance Curriculum Materials. Day 1 focused on the five key themes of literacy and language in the CA ELD/ELA framework in addition to familiarizing themselves with the newly adopted ELA materials, instructional supports (i.e. objective, concept development, scope and sequence), pacing and assessment and technology. In day 2 participants explored how to use the framework to inform how best to use the new ELD curriculum as a tool to teach the ELD standards during Designated ELD.

Job embedded professional learning through peer support is orchestrated and provided by on site coaching opportunities. All schools have support from a full time or half time Curriculum Coach and shared Digital Learning coach to help apply professional learning through co-plan/co-teach opportunities, lesson studies, grade level calibrating and planning, peer learning walks and modeling of effective delivery of instruction.
