School Description

Venetia Valley School is a K-8 school located in northeast San Rafael near the Marin Civic Center. The campus is located in a beautiful setting, nestled in a valley, surrounded by coastal foothills. It serves the communities of Santa Venetia as well as students from other parts of San Rafael. Parents are active participants in the school's programs and the education of their children.

Venetia Valley is a community school where students, families, and staff are celebrated for who they already are and are supported in every way to become all that they aspire to be.

The instructional focus at Venetia Valley School evolves from a firm belief that every student can learn and a strong commitment to providing an educational program for each student. Venetia Valley offers many special programs including a dual language program that gives students an option to learn both English and Spanish.

In addition to academic achievement, Venetia Valley encourages students to develop self-discipline and maturity based on an understanding that they are individually responsible for their own attitudes and behavior.

Venetia Valley School's Pre K-8 I CAN University mission is to: build a professional student culture; strengthen student and community engagement; and offer a rigorous college, career, and community readiness academic program, celebrating bilingualism, the arts, and 21st century skills (communication, collaboration, creativity and critical thinking).

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

Curriculum development is a district-wide effort. Teachers and administrators from all subject areas form working committees to draft recommendations on courses of study, appropriate textbooks, and other instructional materials.

The California Department of Education has determined textbook selection and adoption schedules. The district follows the state schedule for these adoptions and has purchased textbooks from the most recent state-approved lists. All approved instructional materials are aligned with California content standards for core academic areas.

The Elementary School District Curriculum Advisory Council, composed of administrators, teachers, and parents representing each school in the district, reviews curriculum recommendations and revisions for all courses of study, appropriate textbooks, and other materials utilized in the support of the instructional program. The Curriculum Council recommendations are forwarded to the Board of Education for final approval. This is an ongoing process, assuring that all textbooks and instructional materials are systematically reviewed, updated, and supplemented.

This table shows some of the textbooks used with grade K-8 students. A comprehensive list of all textbooks is available at the district office.

School Facility Conditions and Planned Improvements (Most Recent Year)

At Venetia Valley School, the campus is orderly, and students feel safe at school. The school ensures that on-site supervision is provided for programs that take place before and after school. Before school, two supervisors watch students out on the yard. Middle school teachers are assigned to watch the locker area every morning and also in the afternoon. Staff members are also assigned to help supervise and organize after-school dismissal.

District and school policy require that during the school day all guests to the campus check in at the school office and obtain a “visitor pass” to identify them for security personnel and all staff and students.

The physical quality of the school campus influences teaching and learning. All students and faculty have a reasonable amount of classroom and open space.

Venetia Valley School was established in 1959. The school has a total of 39 classrooms, a library, computer lab, music room, gymnasium, stage, locker rooms and two playgrounds. The school underwent modernization in 2004-2005 and 2005-2006 using voter-approved school bond funds and state modernization funds. The modernization project included the addition of a new middle school campus at the back of the property with three new classroom buildings for new middle school students, a new modular student restroom building, modernization of the K-5 campus including library/computer lab and gymnasium, extensive repaving and site work, and conversion and expansion of the old kindergarten building into a new student services area. Two classroom portables were added in the summer of 2013 to address growth.

The district strives to ensure that all schools are clean, safe, and functional. All bathrooms, classrooms, and offices are cleaned daily. Students are encouraged to help keep the campus clean by recycling. District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. An online maintenance order request process is used to ensure efficient service and that emergency repairs are given the highest priority.

The state's School Deferred Maintenance Program, which provided state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components, became inoperative effective July 1, 2013. However, the district continues to make an annual contribution to support capital improvement projects, including deferred maintenance projects.

San Rafael voters approved Measure A in November 2015 to fund capital facilities projects to improve our school facilities. Measure A provides \$108 million to update the district's elementary and middle school facilities.

SRCS' bond program is providing much needed capital improvements to our facilities to create safe, innovative learning environments and to provide instructional technology to support 21st century learning. Additional classrooms, labs and equipment are being built and improved to reduce overcrowding in our schools and to better meet the growing demand for hands-on science, technology, engineering, arts and math (STEAM) classes. Site Design Teams and architects, led by the District's Capital Facilities Team, have contributed greatly to shape the plans for these improvements, and the construction work is ongoing throughout the district.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2019-20)

Contact Person Name: Jessica Marker (Family Center Coordinator: jmarker@srcs.org)

Parent involvement is a vital component of the educational program at Venetia Valley School. The San Rafael City Schools would not be what it is today without the contributions of countless parents and guardians who give their time and expertise as volunteers and who share their financial resources to support the goals and aspirations of San Rafael schools.

Parents and guardians have the opportunity to play an active role in their child's school experience through a number of activities, including Community Task Force, district and school English language advisory committees, parent teacher associations, district and school site committees, fundraising campaigns and special events.

At Venetia Valley School, specific opportunities for parent participation include the site leadership team, parent teacher association, school English language advisory council monthly Charla Café International Story Night, Madre con Poder and I CAN Moms, and many subcommittees that address specific program needs. Recent activities that involve parents include an Ice Cream Social, a Fall Carnival, International Pot Luck, Family Game Nights and an International Story Night.

Parents are also connected to the school through various informational and community-building events, including back-to-school nights, teacher conferences, concerts, plays, musicals, and other artistic and athletic events.

Venetia Valley School houses a Family Center run by a Family Advocate and Mentor. The Center provides weekly opportunities for parents to come and work together in support of creating instructional materials for the classrooms. In addition, the Advocate and Mentor are bilingual and bi-literate and support our parents with accessing services that help meet their basic, and support them with gaining access to education opportunities that include English classes and parenting workshops. The Advocate and Mentor also participate in family enrichment opportunities including guided hikes with community partners at the National Park Service at the Presidio in San Francisco and at Muir Woods.

State Priority: School Climate

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

Date Reviewed and Updated: August 28, 2019 Date Discussed with School Faculty: September 25th, 2019

Venetia Valley School has a comprehensive school safety plan covering all aspects of planning for emergency response and student safety. This plan is based on and coordinated with the district and county emergency preparedness plans. The plan is reviewed with school staff at the start of the school year. The plan is updated annually to increase preparedness for any emergency, including storms, fire, earthquake, or intruders on campus. Fire drills are held once a month throughout the year. The school also participates in an annual county-wide disaster preparedness drill.

Key elements included in the school safety plan include: disaster parent contact plan, provisions for emergency supplies, staff member assignments in case of disaster, chain of command, and description of various drills.

Professional Development provided for Teachers

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement	3	3	3

District professional development during the 2019-2020 school year continues to focus on math district wide during differentiated professional development offerings and district professional development days. Additionally, teachers at all schools are participating in a robust year-long professional development on writing workshop including a Beginning Summer Writing Workshop Institute, lab sites demonstration days and built in planning time. With coach support, teachers will continue using assessments to inform differentiated reading instruction through small groups and conferencing. Finally, all teachers are also able to choose from a wide range of differentiated professional development opportunities such as "Math Talks" and "Next Generation Science Standards: Key Instructional Shifts," among others. These topics were chosen based on teacher surveys, student learning data and district focus areas. District wide, we are also in our sixth year of professional development for all PK-3 teachers in SEAL to support our English Learners. In our planning days for these content units, we are focusing on the shifts the H/SS framework requires, particularly on counter-narratives and the use of primary sources. Teachers also participate in site based professional development as well as other offerings through the county and other organizations as appropriate.

In 2018-19, PD topics included: writing workshop, math, Strategies and Curriculum Planning for ELD, Fountas and Pinnell Benchmark Assessments, use of data for differentiated instruction, writing workshop and instructional strategies to meet the needs of English language learners.

In 2017-18, training topics included: California Common Core Standards, Balanced Literacy and Guided Reading, Strategies and Curriculum Planning for ELD, Fountas and Pinnell Benchmark Assessments, EL Achieve Designated ELD (Grades 4 and 5), use of data for differentiated instruction, writing workshop and instructional strategies to meet the needs of English language learners. These topics were selected based on CELDT scores, fluency scores, district benchmark data, and other student data.

Teachers and other key school staff members have opportunities for participation in professional development activities through district, school, categorical, grant, foundation, and parent-teacher organization funds. Professional development is focused to support the mission and goals of the district and each school site plan and may include site and district training, county offerings, state and national conferences, and workshops as appropriate.

Types of Services Funded

Venetia Valley School offers programs and supplemental services that are available at the school and funded through categorical funds or other sources. For the 2018-2019 school year, these programs and services included the following:

- Content coach
- Staff development
- Parent education
- Instructional assistants
- Supplemental after-school program teachers
- Instructional materials

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
