School Description

Penryn's instructional philosophy is developed around a workshop model (small group instruction-MTSS a multi-tiered support system). Through the workshop model we are able to be responsive and meet the needs of all our students. With this model of teaching, our Penryn team works collaboratively to keep students in the classroom for a majority of the school day. By doing this students are given the same core instruction as all their peers but we can help support with push in given through staff in our resource department, again a Multi-Tiered Support System (MTSS).

Penryn is a Positive Behavior Interventions and Support School (PBIS). Positive Behavioral Interventions and Supports (PBIS) is a way for schools to encourage good behavior. With PBIS, children learn about behavior, just as they learn other subjects like math or science. The key to PBIS is prevention, not punishment. We were recognized by the State of California PBIS Coalition for our PBIS programming at Penryn School with the Platinum PBIS Implementation Reward for the 4th year in a row. We are very proud of our PBIS program at Penryn School.

It is essential that our school fosters a sense of community. We accomplish this with the partnerships and collaboration we have with our community, families, students and business owners.

School Mission Statement

To create 21st century, critical thinking, lifelong learners who are innovative in achieving academic excellence, and to nurture the development of responsible citizens in the community by setting high expectations and scaffolding to meet the needs of all students.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or LCAP, see the CDE LCFF web
 page at https://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

The school district held a public hearing on September 5, 2019 and determined that each school within the district had sufficient and good quality textbooks, instructional materials, or science lab equipment pursuant to the settlement of Williams vs. the State of California. All students, including English learners, are given their own individual standards-aligned textbooks or instructional materials, or both, in core subjects for use in the classroom and to take home. Textbooks and supplementary materials are adopted according to a cycle developed by the California Department of Education, making the textbooks used in the school the most current available. Materials approved for use by the State are reviewed by all teachers and a recommendation is made to the School Board by a selection committee composed of teachers and administrators. All recommended materials are available for parent examination at the district office prior to adoption.

The table displays information collected in September, 2019 about the quality, currency, and availability of the standards-aligned textbooks and other instructional materials used at the school.

School Facility Conditions and Planned Improvements (Most Recent Year)

The current Penryn School campus was constructed in 1961 and had the classrooms modernized in the 2005-06 school year. The campus is comprised of 12 classrooms, three portable classrooms, a library, a multipurpose room, a staff room, a computer lab, and a playground. School facilities are all up-to-date, clean, safe, and provide adequate space for students and staff. Over the summer of 2013 and 2014, the school's front courtyard was developed and beautified with new concrete, benches, and landscaping. The summer of 2018 new air condition units were put in along with an AC unit in our MPR. The summer of 2018 the school was painted.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

CAASPP Test Results in ELA and Mathematics for All Students Grades Three through Eight and Grade Eleven Percentage of Students Meeting or Exceeding the State Standard

Subject	School 17-18	School 18-19	District 17-18	District 18-19	State 17-18	State 18-19
ELA	72	74	66	69	50	50
Math	54	61	58	61	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Cells with N/A values do not require data.

Note: This is a placeholder for the California Science Test (CAST) which was administered operationally during the 2018-19 school year. However, these data are not available for inclusion in the 2018-19 SARC posting due February 1, 2020. These data will be included in the 2019-20 SARC posting due February 1, 2021.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2019-20)

Parents and the community are very supportive of the educational program at Penryn School. Parents are very active at the school site, participating in the Parent-Teacher Club (PTC) and serving as volunteers in the classroom, middle school enrichment program, library, office, for school events, playground and as art docents. The PTC provides support to individual classrooms, as well as school wide programs. For additional information, please visit the Penryn PTC website at penrynptc.com.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

The safety of students and staff is a primary concern at Penryn School. The school is always in compliance with all laws, rules, and regulations pertaining to hazardous materials and state earthquake standards. The School Site Safety plan was last reviewed and updated in the Fall of 2019 by the School Safety Committee and Site Council. The school's disaster preparedness plan includes steps for ensuring student and staff safety during a disaster. Fire and disaster drills are conducted on a regular basis throughout the school year. Shelter in place drills are held three times a year. Students are supervised before and after school and during recess by teachers and paraprofessionals. Yard Duty Supervisors monitor students during lunch recess. All visitors must sign in at the school office, obtain a visitor's pass and sign out upon leaving.

Professional Development provided for Teachers

Measure	2017-18	2018-19	2019-20
Number of school days dedicated to Staff Development and Continuous Improvement	5	3	3

As part of the professional growth process, opportunities for training and staff development are provided at both the district and individual school sites to administrators, teachers, certificated and classified staff. The district offered five staff development days during the 2017-2018 school year and three staff development days during the 2018-19 and 2019-20 school years. During these staff development days staff members are offered professional growth opportunities to expand staff knowledge in curriculum, assessment and instructional strategies.

The last three years Penryn has sent five of their staff members to Teacher's College to establish and strengthen our Writers Workshop program at Penryn. For the summer of 2018 we sent 5 staff to writing training in L.A., this allowed them to enrich and broaden their units of study and areas of focus for writing and language arts. We continue to send staff to professional development around writing to enrich our learning and growing with our writing program. We also set aside time during our weekly staff meetings to share and review our writing program, this allows us to make adjustments to the program as needed for students.

For the 2018-2019 school year we are moving our focus now to math. We are finding ways in which we are successful in our writing workshop program and using those same structures for math. We are spending time collaborating with vertical teams to see what concepts are needed for the following years in math. We will look at scope and sequence, foundational concepts and at data, to find the trends, so we can see the concepts students are not grasping year after year.

We are in our sixth year of PBIS (Positive Behavior Intervention Supports) program at Penryn. We continue attending professional development for our PBIS leadership team through state conferences, booster trainings and district wide professional development.

With all programs at Penryn we monitor and support our programs through academic conferences (teacher-principal meetings), PLC (professional learning communities), district wide TOSAs (teachers on special assignment) doing in and out of class coaching, we also bring consultants in for mentoring and coaching with staff.

For new teachers, the district supports them through the statewide BTSA (beginning teacher support and assessment) program where they work with an expert teacher to help mentor and guide them through their first two years.

Currently we have a mentor program where staff mentor students on campus. For the 2018-2019 school year we will develop and pilot a peer mentor program where 7th and 8th grade students can mentor students in the Kinder through 4th grade classes.

<u>DataQuest</u>
DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).
Internet Access
Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print
documents.
